## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Czech et al. 5,180,275. Czech '275 discloses a lifting apparatus for transferring a user to and from a seat of a vehicle, the lifting apparatus 10, Figs. 2-6, comprising a mounting and support assembly 22, 23 for attachment to a chassis of the vehicle, an extension arm assembly supported by the mounting and support assembly such that the extension arm is located substantially behind the vehicle seat 21, a support member 8 attached to the extension arm assembly for supporting a modular and removable transfer seat (wheel chair).

Re claims 4 & 5 wherein the support member 8 pivots about substantially horizontal axis between a substantially horizontal position and a substantially vertical position and wherein the transfer seat pivots about substantially horizontal axis when the support member is in its substantially horizontal position and about a substantially vertical axis when the support member is in its substantially vertical position.

Re claim 8, the extension is located substantially in front of the vehicle seat 21' (Figure 6).

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Each of the cited references separately discloses a lifting apparatus for transferring a user to and from a seat of a vehicle.
